**Source: Euromonitor International Limited. Claim verification based on Euromonitor research and methodology for Amway Corporation conducted from May through June 2018. Euromonitor determined the highest possible total historical sales of the leading global and/or regional Amway competitors and eliminated those whose total sales are less than double that of Amway's own stated historical total bonuses paid out to distributors historically. Of the remaining companies, Euromonitor eliminated companies whose average share of bonuses and cash incentives paid out totals were less than 70% of Amway's stated historical total of bonuses. No companies remained after this stage. To the extent permissible, Euromonitor does not accept or assume responsibility to any third party in respect of this claim.

The average monthly Gross Income for "active" IBOs was USD \$207 (in the U.S.)/CAD \$186 (in Canada).

Approximately 48% of IBOs in the U.S., and 52% of IBOs in Canada, were "active."

The Amway Independent Business Owner Compensation Plan (IBO Compensation Plan) offers monthly and annual bonuses that IBOs can earn in accordance with their contract with Amway. IBOs also may qualify for the AMWAY™ Growth Incentives Program (GI Program), a collection of discretionary programs separate from the IBO Compensation Plan and that can vary from year to year. IBO eligibility for the GI Program is at Amway's discretion. The GI Program is available only to IBOs in "good standing" and those whose conduct demonstrates high ethical and business standards aligned with the goals and objectives of Amway and its related businesses.

The average monthly Gross Income for "active" IBOs was USD \$207 (in the U.S.)/CAD \$186 (in Canada). Approximately 48% of IBOs in the U.S., and 52% of IBOs in Canada, were "active." IBOs were considered "active" in months in 2016 when they attempted to make a retail sale, or presented the Amway IBO Compensation Plan, or received bonus money, or attended an Amway or IBO meeting. If someone sustained that level of activity every month for a whole year, their annualized Gross Income would be \$2,484 (U.S.)/\$2,232 (Canada). Of course, not every IBO chooses to be active every month. "Gross Income" means the amount received from retail sales, minus the cost of goods sold, plus monthly bonuses and cash incentives. It excludes all annual bonuses and cash incentives, and all non-cash awards, which may be significant. There may also be significant business expenses, mostly discretionary, that may be greater in relation to income in the first years of operation. For the purposes of the calculation in Canada, individuals who were IBOs for less than the entire year in 2016 were excluded.

Following are approximate percentages of IBOs in North America who achieved the illustrated levels of success in the performance year ending August 31, 2018: .3952% (Platinum) and .0210% (Diamond).

For more details on qualifying for the GI Program and the requirements for good standing, see information on Amway.com or contact Amway Sales.
