SAY: Why Artistry Signature Select™ Masks?

Masks are very trendy in the market, and Premium Face Masks is a \$202 Million industry.*

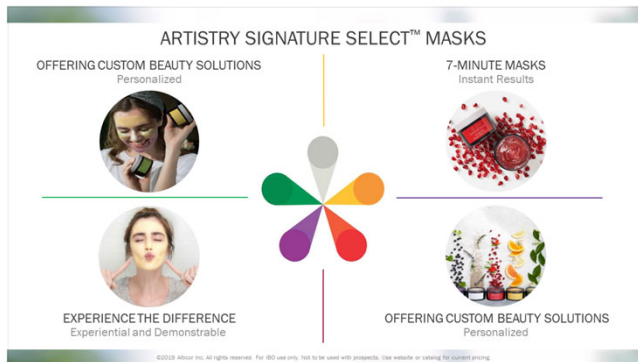

Artistry pursued wash-off masks vs. sheet masks for several reasons:

1. Consumer satisfaction has decreased with sheet masks due to the undesirable end benefit and irritation issues.
2. Wash-off type masks can come in many different forms such as gel, cream, clay, etc.
3. Ability to address multiple skin concerns at once with wash-off masks vs. sheet masks that can only address one skin concern at a time.
4. More focus on experiential home treatment with wash-off type mask.
5. Masks are gaining popularity as they are ideal for 'Instagrammable beauty'.

SAY: Let's explore the latest innovation in skincare: multi-masking.

WHAT IS MULTI-MASKING?

Multi-masking means using multiple masks on different face zones at once, or as part of a multi-day routine.

MULTI-MASKING BENEFITS:

- Easily create a highly personalized skincare regimen.
- Target the varying needs of specific face zones, giving each zone exactly the treatment it needs.
- Create a unique sensory experience every time.
- Customized treatment designed for immediate results.

Think of it as your 7-minute spa treatment, but easier, more affordable, more personalized, and available any time you want!

SAY: One thing to be clear about: you should not mix the mask formulas together, or layer them on top of each other. When applying multiple masks, the masks should be applied carefully so that only ONE formula is used in each face zone.

DO I HAVE TO MULTI-MASK?

Of course not! Some customers may prefer to use just one mask, and the Artistry Signature Select™ Masks are amazing all by themselves. Others may enjoy using a different single mask each day. Keep in mind that when multi-masking everyone's skin is different.

Product Selling Framework

1 minute

(IDENTIFY THE NEED/Artistry Signature Select™ Masks)

SAY: Now that we have shared information about the masks, let's talk about how to sell to customers. Amway did research and based on the insights created a 6 step selling framework that is proven to help IBOs develop impactful stories to sell products. Today we will go through each of the six selling steps for Artistry Signature Select™ Masks, so you can see how easy it can be to start conversations with customers about these products.

SAY: Here is the product selling 6 step framework.

1. Identify the Need
2. Build a Personal Connection
3. Use Features and Benefits
4. Create an Experience
5. Address Price Value
6. Close the Sale

Let's get started!

[CLICK to advance to next slide.](#)

1 minute

SAY: The first step is to Identify Customer Needs. This helps provide relevant information that will drive the conversation and keep potential customers engaged.

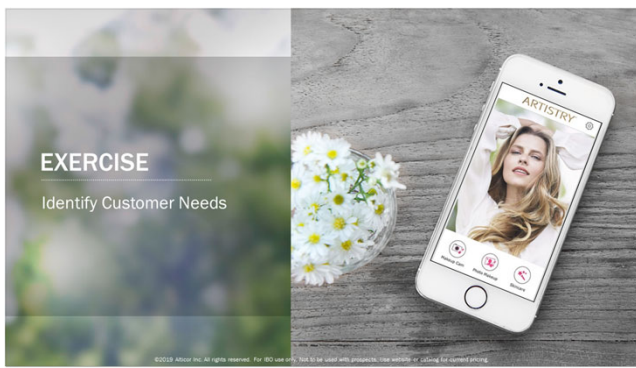

Do you have friends that look for the latest innovations in skincare? Or friends who love to go to the spa or love to use face masks?

Actively listen to your customers to identify a potential desire to want to try a custom 7 minute multi-masking treatment with the Artistry Signature Select™ Masks.

Get the conversation started! For example, next time you are out with a group of friends and you are talking about skincare, ask your friends “Do you need a fun product to freshen up your skin with instant results?” Or ask, “What fun new products have you tried?” “There are so many masks out there, have you tried any?” This gets the conversation started for you to tell them about the product!

[CLICK to advance to next slide.](#)

2 minutes

(IDENTIFY THE NEED/Artistry Signature Select™ Personalized Serum)

SAY: Once you have identified the need, find out more. Let's do an exercise using the Artistry Virtual Beauty app to help identify customer needs.

The Artistry Virtual Beauty app is a great tool to use with customers to identify their needs and introduce them to products that fit their needs.

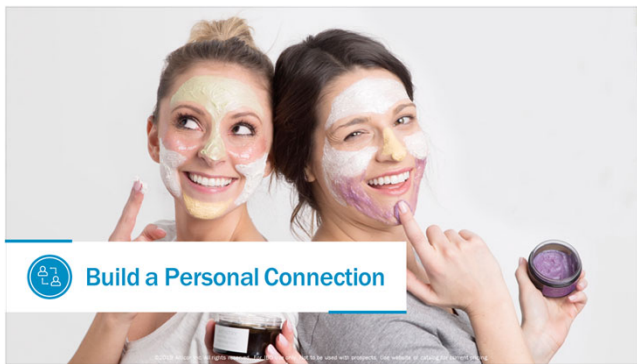

INSTRUCTION: Get 1 volunteer from the audience. Introduce them to the Artistry Virtual Beauty app and follow these steps:

1. Select Skincare, then continue.
2. Snap your selfie. Look straight into the camera with no facial expression and position your face.

When you share your personal experience with Artistry Signature Select™ Masks and your own personalized multi-masking experience, you create credibility and form a connection between yourself and your customers.

Customers want to hear why you love these products. Share your story when talking with friends, family, and new people you meet!

Using the Artistry Virtual Beauty app with your customers, introduce them to the products that are recommended for them, and give your personal testimonial about the products.

INSTRUCTION: Talk through which of the products on the app you have a personal connection or testimonial about.

The next step is use Features and Benefits.

CLICK to advance to next slide.

1 minute

SAY: Step 3 is Use Features and Benefits. Artistry Signature Select™ Masks work brilliantly, all over the face. But they were designed so that you can use more than one mask on different zones of the face at the same time.

Sharing benefits is important because it creates excitement and belief in the product and shows how the product is different and unique.

Share specific benefits that connect to your customer's needs.

INSTRUCTION: On the Artistry Virtual Beauty app, click on one of the recommended masks. It will bring you to the Amway Website. Click on product details. Here you will find the product benefits.

CLICK to **advance** to next slide.

1 minute

SAY: Step 4 is to Create an Experience. This is how you bring the products to life for your customer, giving them a deeper sense of their features and benefits as well as their efficacy and quality.

You can create an experience of Artistry Signature Select™ Masks by sharing information or inviting them to try the masks for themselves with the single use mask samples. Customers can feel the multi-masking experience before they purchase.

Imagine if you were having a beauty break at home or having your friends over for a social night, and how easy this could be to have a fun experience together trying out the different masks.

INSTRUCTION: With your volunteer, invite them to apply their recommended masks to their face to try it themselves.

- Note: Make sure you have a bowl of water, a wash cloth, and towel to wrap around your volunteer to prevent any spills.

Let's continue to the next step, Address Price Value.

CLICK to advance to next slide.

1 minute

SAY: Step 5 is to Address Price Value. This step is important because if you hide the price, people can assume a product is expensive or lose trust. They want to know how much it costs.

With Artistry Signature Select™ Masks, you can help your customers stay on budget and enjoy wonderful skincare benefits from multi-masking in the privacy of their own home.

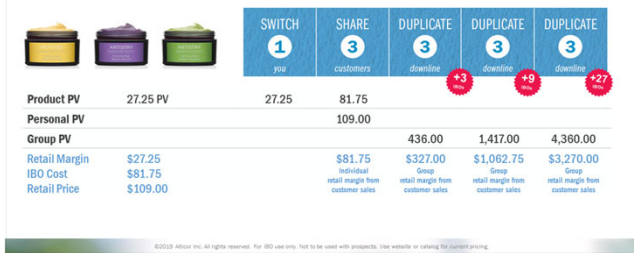

INSTRUCTION: On the Artistry Virtual Beauty app, click on the recommended mask product. It will take you to the Amway website where you can see the product pricing.
